Hi Steve,

Thank you for the e-mail. Kay Lawrence, in our Superfund division, is the manager responsible for EPCRA 311 312 inventory, which your concerns are related to. She is investigating and will get back to you.

Thank you,

Matt

**Subject:** Apache Nitrogen in Cochise County

I have been working with a television station (Channel 15) that is doing a story related to the ammonium nitrate disaster in Texas. They are exploring whether this could happen here in Arizona. They called me the other day and said that when they approached the local volunteer fire department in St. David, which is the fire department of jurisdiction, about whether it received the Tier Two reports for Apache Nitrogen, the folks at the fire department insisted that they did not get the reports.

Given the previous issues with compliance in various environmental regulatory arenas with this facility, I request EPA investigate and take appropriate action.

Thanks,

Steve Brittle
